

Snorbans Cabinets

Snorbans are proud to offer cabinets from Lanz Cabinets of Oregon, U.S.A. who design and build cabinets for kitchen and bath, laundry and pantry, home media centers and more.

They are just as accustomed to creating elegant custom kitchens for luxurious estates as they are to producing economical modular kitchenettes for studio apartments.

Their proximity to Oregon's timberlands allows us to offer competitive pricing.

The face frame cabinet lines are made from top-grade maple, alder, cherry, beech, hickory and oak. All cabinets in these lines have 100 percent solid wood face frames and are available in a multitude of finishes.

The frameless cabinet lines, currently offered only to the multi-family market, can be produced according to our standard frameless collections or according to project specifications.

As a long-standing member of the Kitchen Cabinet Manufacturers Association (KCMA) Lanz cabinets are produced to meet third-party testing for durability.

All cabinets are offered with a wide selection of durable European hardware, hinges, drawer guides and accessories.
